*Serving mobility*

## MERCEDES-BENZ CLASS-V / VITO MULTIFUNCTIONAL WHEELCHAIR VAN

B-style has developed a conversion kit for the Mercedes-Benz Class-V / Vito so it can be converted to a wheelchair van suitable for multifunctional use. The Class-V / Vito wheelchair van easily provides space for one wheelchair user plus a maximum of five seated passengers. Also it enables to transport a maximum of 8 seated passengers when no wheelchair is transported. The Class-V / Vito suits for private use, but can also be operated as a multifunctional taxi.

This particular solution is possible for all Class-V / Vito Rear Wheel Drive versions.

B-style works with you to deliver a high-quality product that perfectly meets your demands. We achieve this with a personal approach, an innovative development department and experienced professionals. All our activities are conducted in conformance with European regulations and the guidelines provided by the various vehicle manufacturers.

# MERCEDES-BENZ CLASS-V / VITO

## MULTIFUNCTIONAL WHEELCHAIR VAN

### Wheelchair ramp, clear rear vision

To grant easy access we offer a wheelchair ramp with a folding tip to enable a longer ramp but without disturbing the rear vision. Optional this ramp can be lightweight and it is covered with an anti-skid surface. Extra long and reinforced gas struts are installed to provide more headroom under the tailgate.

### Flexible configuration

The seating configuration is very flexible. Depending on the version (L2 + L3 versions) you can choose OEM configurations with single or double co-drivers seats, 2nd row with a bench for two or three passengers or even two single seats. To offer maximum flexibility and capacity it is even possible to install up to four folding seats to reach a total of eight passengers plus driver.

### Wheelchair space

The maximum available wheelchairspace measures 123,5 x 85 cm (LxW) and offers up to 141 cm of headroom.

### Wheelchair tie down system

The wheelchair tie down system and the three-point safety belt meet the requirements of ISO 10542.

### Folding seats

Two folding seats can be placed in the Class-V / Vito. The Extra Long can accommodate four folding seats. The seats have a very comfortable seat cushion and are available in various colours and materials. All are fitted standard with three-point safety belts.

### Invisible low floor

The bumper is attached to the tailgate, so the low floor does not change the external appearance. The original parking sensors in the rear bumper can be retained during the conversion (optional).
